

Broadway Market Projects Cic

A community interest company limited by guarantee
Registered office: 10, Croston Street, London E8 4PQ.

Mission statement

The mission of the Saturday market is to act as a catalyst for the regeneration of the Broadway neighbourhood: to revitalise the area socially, economically and environmentally.

The market was created by the Broadway Market Traders' and Residents' Association and is operated by Broadway Market Projects Cic in co-operation with Hackney Council.

Stalls and shops on Broadway reflect the rainbow culture that gives the neighbourhood its vitality. They will continue to serve the whole community: all races, genders and religions.

The market provides the quality and speciality of a farmers' market without the limitations. While a majority offer food, space is reserved for high-quality non-food items. We serve all income groups and cultures. We foster young entrepreneurs.

The market will strive to become an environmental leader using power from renewable energy, and recycling its waste.
